

## Berendsen

### Berendsen Line

The Berendsen line is a range of hygiene dispensers for common washrooms. Inside, each product is designed to function efficiently and to make the daily routines of both primary user and maintenance easier and more hygienic.

Outside, the outer layer gives all the various elements a stylish, uniform look. The outer layer is available in glass blasted steel, white or a multitude of colors and allows you to choose appearance according to preferences and style.

The colored covers are treated with a patented soft paint and all products have an antibacterial surface that reduce germs and cut down on employee illness.
