

d line™ international as

Bathroom

The d line series includes six individual product groups, all built around the same design philosophy and visual language, which, when combined, create a »total solution«.

The simplicity and functional design characterizing d line's »total solution« also applies for d line's items for the bathroom. In most buildings, the bathroom is a confusion of different styles. The d line bathroom series offers the possibility of achieving a consistency in the overall impression of the bathroom.
