calendar

### Calendar

For 15-20 years, **d line** has sent out their annual calendar to partners and customers. The calendar contains some of the finest architectural projects from all over the world, where d line fittings have been used. Amongst the represented architects are names like Daniel Libeskind, Richard Rogers Partnership, David Chipperfield, Foster & Partners, Steven Holl and many others. As a tribute to the architects, the photographs in the calendar focus on the buildings, not on the d line fittings. The format is kept to 32,5 x 32,5 cm, the graphical concept changes from year to year.
