ScanWood

Client:
ScanWood
Product: Pure Wood
Awards:

2005

Pure Wood
ScanWood, who has a wide product range, will with this series be able to offer a whole product family, manufactured in beech wood.

The system consists of chopping boards, trays, a morter, salt tubs and other accessories.
The items can be supplied with glass bowls in different sizes, which fit into the recesses of the boards.
All the articles fit together in size and height and have the same grip detail.
