reddot 2006

Armchair

Holscher chair is the result of a cooperative production of Sorø/Ole Bjerregaard and Søborg Furniture A/S.

The conference and dining chair is manufactured in massive maple, ash or mahogany with a seat in cane or with a leather cushion.

The chair is crafted according to the best traditions of cabinet-making.

Armchair has been introduced at the Copenhagen Furniture Fair 2005 and achieved a very positive response.
