

## XO-Care

### Trade Fair Exhibition for XO-Care – Manufacturer of Dentists Equipment

A turned wall consisting of 4 deep wooden objects divides the stand into 2 areas: A quiet meeting zone with café alongside the back wall, and an active area towards the public hallway, where XO-Cares 4 product groups are represented.

The 4 dentist stations are installed in front of the wooden objects with small passages in between that make the stand transparent. The light wood creates a contrast to the technical equipment and gives the stand a Scandinavian and appealing atmosphere.
